

Add The Look Of Real Glass...

Bullseye Lites Now Available For Fiberglass and Steel Doors

GDL-D-2L4P-Txt

The Georgetown Door Lite® can now enhance your entranceway with beauty and elegance in either a fiberglass or steel entry door. The Georgetown Door Lite® can be ordered pre-installed in many brand name doors or purchased separately for installation into existing doors. Check with your local home improvement center, building supply store, or contact us for availability. If purchased separately for installation into existing doors, specify tan frame for textured, stainable doors or white frame for smooth, painted doors. Meets ANSI Z97.1 1986 (R1994) standard for safety.

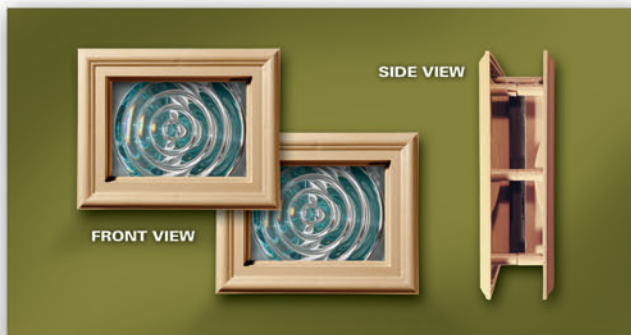

For more information, visit us online at www.georgetowndoorlite.com, email us at info@georgetowndoorlite.com or call 978-352-4557.

GEORGETOWN DOOR LITE®

TAN FRAME

The tan door lite frame requires finishing. If staining, use gel stains with two topcoats of an acrylic polyurethane. Read cleaning instructions on this site for proper care and cleaning of the bullseye portion.

WHITE FRAME

White frames require no finishing. If painting, use an acrylic primer labeled specifically "for plastic" and two topcoats of acrylic paint. Read cleaning instructions on this site for proper care and cleaning of the bullseye portion.

...But With Better Than Glass **PERFORMANCE**
